## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-6 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior arts in the record fail to disclose a signaling network having a switching node in each of the processing sites for which the control computers exchange call processing data with said plurality of remote switching systems; and a central network manager operatively coupled to the plurality of control computers and the switching nodes in each processing site, the central network manager configured for managing and monitoring the call processing data being exchanged on the signaling network between the plurality of control computers and the plurality of remote switching systems so as to reconfigure loading of call processing data being exchanged on the signaling network within a structure of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Brockman (US 5592530) discloses a plurality of monitoring for monitoring the link between SSP, STP in order to capturing the call transaction.

Hager (USP 6154467) discloses a manager for configure and monitoring the operation of the adaptation device.
